Announcements:

AOPA Expo 2005 is right around the corner. It will be held in Tampa, FL from November 3-5. For registration information please call (888) 462-3976 or visit www.aopa.org/expo.

The FAA has created new low altitude area navigation (RNAV) routes for the en route and terminal environment. The RNAV routes will provide more direct routing for IFR aircraft and enhance the safety and efficiency of the National Airspace System. If you would like a new chart, they are available at RexAir.

We offer Flight Training Financing as another option for obtaining any certificate or rating. Please see a friendly staff member for details.
